**Course Objectives:** The aim of this course is designing a piece of furniture, by starting with conceptual development and production of working drawings, and a scaled prototype model that represents the original idea. The primary objective of this design studio is to design a piece of furniture in respond to the requirements of a proposed context and design profile.

**Course Description:**

In this course students design full detail furniture by considering scale, human comfort, ergonomic, sustainability, universality, production techniques and marketing. Students will be fully engaged in the studio discourse, be prepared for each individual desk critique and workshop session and invest time outside of studio hours for developing the projects.

**Learning Outcomes:** Upon successful completion of the course, students will be able to:

1. Develop and refine design concepts
2. Produce sketches as well as working drawings
3. Make a prototype model
4. Gain knowledge about different materials
5. Communication through presentation
- 6.

**Planned Learning Activities and Teaching Method:**

**Learning/Teaching Method:** This is a studio course and students learn about design process by getting directly involved in the process. The studio practice is supported by lectures and group/one-o-one critique sessions. The main teaching medium in studio is individual critiques.

**Project Development:** A series of assignments with emphasis on the main topic will be offered in this course. In the first half of the semester assignments will mainly include exercises in relation to the writing User Profile, Site analysis, Concept and Scenario, Zoning and Bobble Diagram and first design proposal. In the second half of the semester these exercises will be followed by developing the actual design project. For developing the projects **minimum 70% critiques are expected**. Development of the project will be evaluated by following the project improvement during the critique sessions.

**Class Participation:** Regular attendance of all enrolled classes is expected. Do not be late to the class. **Attendance will be taken through your signature within the first quarter of the class; if you come later you will be considered half-attended.** At the end of the Semester, your attendance will be reported on UBS system. Attendance is compulsory and in case of absenteeism of more than **20% for the practice and %30 for the theory 30%**, the system will automatically grade you "FF". If you miss a class, it is your responsibility to 'make up' all work, including items discussed in class. Class contribution will be measured in terms of quality not quantity.

**Academic integrity & plagiarism:** Academic integrity is the pursuit of scholarly activity based on the values of: honesty, trust, fairness, respect and responsibility. Practicing academic integrity means never plagiarizing or cheating, never misrepresenting yourself, never falsifying information, never deceiving or compromising the work of others. Basically this means, either intentionally or unintentionally, using the words or ideas of someone else without giving credit, it's strictly forbidden.

**Course Text books:** There is no specific textbook for this course. Students are required to study the recommended reading text books and also do researches on the variety of architectural presentation techniques.

**Key Works:** In this studio course lectures and assignments mainly focuses on User Requirements, critical

thinking, elements of design and the awareness of basic concepts, factors, functions, and materials in designing a space.

**Specific Rules:**

1. **Be punctual. Punctuality is a sign of respect toward yourself and the others.**
2. Show respect for all the people and property around you.
3. Be responsible for your actions and meet all expectations.
4. Follow directions the first time they are given.
5. Students should use the Internet at school for academic purposes only.
6. It is forbidden to record classes with any type of device.

**Communication:** Students are encouraged to visit the professor during their Office Hours. If you cannot make it to announced office hours, please make individual arrangements via e-mail. However, do not expect the professor and the research assistant to respond at length via e-mail to questions of content, definition of terms, grading questions etc. If you have a question that requires a substantive response please set up an appointment to speak with one of us.
