Course Description: This course introduces the practices of the visual language of interiors by exploring the elements and principles of design. Ideas on interior space will be surveyed through size, scale, and the built environment. It will be applied in a conceptual design of up to 81 m² cafe unit. In this studio, the environmental, aesthetical, visual, cultural, structural, and functional fundamentals of design for both interior and exterior environmental will be practiced.

Learning Outcomes:

- Ability to gain design thinking methods by practice and research
- Knowledge of basic cafe design and close environments
- Ability to draw plan and section of the designed space
- Ability to engage in problem solving by mixing practice and theory of design process.

**Planned Learning
Activities and
Teaching Method:**

Learning/Teaching Method: This is a studio course and students learn about design process by getting directly involved in the process. The studio practice is supported by lectures and group/one-o-one critique sessions. The main teaching medium in studio is criticism on studio assignments with student.

Project Development: A series of assignments with emphasis on the main topic will be offered in this course. In the first half of the semester is going to be built on the design of the close environment of the structure which are 2D and 3D compositional design works in relation to the design basics. Second half of semester is going to be built on the structure itself from 2d drawings through 3D models. Development of the project will be evaluated according to the gained drawing skills and structural knowledge and the assignments' quality.

Class Participation: Regular attendance of all enrolled classes is expected. Do not be late to the class. **Attendance will be taken through your signature within the first quarter of the class; if you come later you will be considered half-attended.** At the end of the Semester, your attendance will be reported on UBS system. Attendance is compulsory and in case of absenteeism of more than **20% for the practice and %30 for the theory, the system will automatically grade you "F"**. If you miss a class, it is your responsibility to 'make up' all work, including items discussed in class.

Academic integrity & plagiarism: Academic integrity is the pursuit of scholarly activity based on the values of: honesty, trust, fairness, respect and responsibility. Practicing academic integrity means never plagiarizing or cheating, never misrepresenting yourself, never falsifying information, never deceiving or compromising the work of others. Basically this means, either intentionally or unintentionally, using the words or ideas of someone else without giving credit, it's strictly forbidden.

Course Text books: There is no specific textbook for this course. Students are required to study the recommended reading textbooks and also do researches on the variety of architectural presentation techniques.

Key Works: In this studio, course lectures and assignments mainly focuses on to create 2D and 3D compositional works according to basic café and retail design concepts that developed by students and represented in 2D and 3D works.

Specific Rules:

1. Be punctual. Punctuality is a sign of respect toward yourself and the others.
2. Show respect for all the people and property around you.
3. Be responsible for your actions and meet all expectations.
4. Follow directions the first time they are given.
5. Students should use the Internet at school for academic purposes only.

6. It is forbidden to record classes with any type of device.

Communication: Students are encouraged to visit the professor during their Office Hours. If you cannot make it to announced office hours, please make individual arrangements via e-mail. However, do not expect the professor and the research assistant to respond at length via e-mail to questions of content, definition of terms, grading questions etc. If you have a question that requires a substantive response, please set up an appointment to speak with one of us.
