Course Objectives: This course aimed to focus both aesthetical and technical dimension of the furniture. Students will be introduced to the fundamentals of furniture design such as materials, details and finishing and construction techniques. At the end of 14 weeks, students are expected to design and produce 2 real size sitting elements in 1/1 scale by considering the given critiques.

Course Description: It is furniture design and building course with practises over sitting elements

Learning Outcomes:

- To learn more about the basic qualities of materials by their direct use
- To develop a design sense which is informed by the fabrication process so that forms, structure and details speak about the methods with which they are made.
- To help the student plan a project that is within the scope of the course in terms of time and technique.
- Develop understanding of the logic of sequence of fabrication.
- To learn the technical, practical and theoretical features of furniture design in terms of materials, design process, construction.

Language: English

Planned Learning Activities and Teaching Method:

Learning/Teaching Method: This is a studio course and students learn about design process by getting directly involved in the process. The studio practice is supported by lectures and group/one-o-one critique sessions. The main teaching medium in studio is individual critiques.

Project Development: A series of assignments with emphasis on the main topic will be offered in this course.

DEPARTMENT OF INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN

In the first half of the semester assignments will mainly include self-built sitting element according to a concept. In the second half of the semester a wooden sitting element will be designed and produced by students at a professional furniture producer shop.

Class Participation: Regular attendance of all enrolled classes is expected. Do not be late to the class. **Attendance will be taken through your signature within the first quarter of the class; if you come later you will be considered half-attended.** At the end of the Semester, your attendance will be reported on SIS system. Attendance is compulsory and in case of absenteeism of more than **30%**, the system will automatically grade you "FX". If you miss a class, it is your responsibility to 'make up' all work, including items discussed in class. Class contribution will be measured in terms of quality not quantity.

Academic integrity & plagiarism: Academic integrity is the pursuit of scholarly activity based on the values of: honesty, trust, fairness, respect and responsibility. Practicing academic integrity means never plagiarizing or cheating, never misrepresenting yourself, never falsifying information, never deceiving or compromising the work of others. Basically this means, either intentionally or unintentionally, using the words or ideas of someone else without giving credit, it's strictly forbidden.
