Course Objectives: The main objectives of the course are to complement formal education by exposing students to current industry trends beyond the curriculum. By providing direct insights from professionals, the course aims to broaden students' understanding of viable career paths, including yacht and stage design within interior architecture. Additionally, participation in workshops and art activities seeks to enhance students' artistic sensibilities and creativity, contributing to a more comprehensive skill set that goes beyond the confines of formal education.

Course Description: This course offers a mix of online or in-person design talks with in or interdisciplinary professionals, design workshops, technical field trips related to current interior or structural materials, yacht design, and more, as well as visits to museums, art galleries, and cultural events like cinema screenings. The aim is to provide a well-rounded understanding of interior architecture through a combination of theoretical learning and practical experiences.

Learning Outcomes: **Upon successful completion of the course, students will be able to:**

1. Explore and understand various career opportunities within the field.
2. Participate in design talks to gain hands-on experience.
3. Engage with industry professionals to gain valuable insights into current hiring trends.
4. Visit art galleries and museums to explore various forms of visual arts, including paintings, sculptures, and installations.
5. Explore the interplay between different art forms and design.

Language: The studio classes and discussions will be in English. Developing your verbal language skills will be very important in acquiring the disciplinary terminology as well as daily communication at the class.

Method:**

Learning/Teaching Method: This is a studio course and students learn about the design process by getting directly involved in the process. The studio practice is supported by lectures and group/one-on-one critique sessions. The main teaching medium in the studio is individual critiques.

Project Development: A series of assignments with an emphasis on the main topic will be offered in this course. In the first half of the semester, assignments will mainly include kitchen design exercises. The second half of the semester will be followed by a bathroom design project. For developing the projects **minimum of 80% critiques are expected**. The development of the project will be evaluated by following the project improvement during the critique sessions.

Class Participation: Regular attendance of all enrolled classes is expected. Do not be late for the class. **Attendance will be taken in the first quarter of the class; if you come later you will be considered half-attended.** At the end of the Semester, your attendance will be reported on the UBS system. Attendance is compulsory and in case of absenteeism of more than **30%**, the system will automatically grade you "FX". If you miss a class, it is your responsibility to make up all work, including items discussed in class. The class contribution will be measured in terms of quality, not quantity.

Academic integrity & plagiarism: Academic integrity is the pursuit of scholarly activity based on the values of honesty, trust, fairness, respect, and responsibility. Practicing academic integrity means never plagiarizing or cheating, never misrepresenting yourself, never falsifying information, never deceiving or compromising the work of others. This means, either intentionally or unintentionally, using the words or ideas of someone else without giving credit, it's strictly forbidden.

There will be pop-up quizzes (unscheduled or unannounced quiz) throughout the semester. The aim is recording student's drawing and modelling skills. In case of serious differences between the quiz results and jury submissions, instructors are allowed to take an extra exam from students.

Also, all visual submissions will be checked through Google's image search engine and in case of detecting high level of similarities between student project and existing designs, the case will be investigated and handled by universities' discipline committee.

Course Textbooks: Students are required to study recommended reading textbooks and also do researches on a variety of architectural presentation techniques.

Key Works: In this studio course lectures and assignments mainly focus on User Requirements, critical thinking, elements of design, and the awareness of basic concepts, factors, functions, and materials in designing a space.

Specific Rules:

1. Be punctual. Punctuality is a sign of respect toward yourself and others.
2. Show respect for all the people and property around you.
3. Be responsible for your actions and meet all expectations.
4. Follow directions the first time they are given.
5. No candies or gums are allowed during classes.
6. Students should raise their hands to signal a question or to answer a question.
7. Students should use the Internet at school for academic purposes only.
8. It is forbidden to record classes with any type of device.
9. Each student has a different learning style. Please create your strategy to learn the topics mentioned in Syllabus.
10. If you request, the instructor may repeat a lecture in the class or during office hours and explain the subjects that you do not understand.
11. Students will be prepared for market conditions and their professional life during the education period. Everyone will be treated equally and fairly. Please do not expect privileged or special treatment from your instructor.
12. Please send your requests about the course to the instructor without delay. When the training process is completed, it is not possible to fulfill any demand.

Communication:

If you have any questions about the syllabus, your responsibilities in the course, and assessment procedures please ask your instructor without any delay.

Students are encouraged to visit the professor during their office hours. If you cannot make it to announced office hours, please make individual arrangements via e-mail. However, do not expect the professor and the research assistant to respond at length via e-mail to questions of content, the definition of terms, grading questions, etc. If you have a question that requires a substantive response, please set up an appointment to speak with one of us.
