IAED 1102	TECHNICAL DRAWING II	2025-2026 / Spring	2	2	3	4

Level of Course: Undergraduate

Course Type: Core Course

Language of

Instruction: English

Course Time: Tuesday Sec I -09:00-13:00, Sec II-13.30 – 17.30

Course Classroom: BB-34

Office Hours: -

Mode of Delivery: Class Teaching, Presentation, Assignments

Prerequisites and Prerequisites: IAED 1101 Technical Drawing I

Co-requisites: None

Course Coordinator: Asst. Prof. Dr. Yaren ŞEKERCI

Name of Lecturer(s): Asst. Prof. Dr. Yaren ŞEKERCI
Course Teaching

Assistant: Res. Asst. Ayşan Ilgın POLAT

Course Objectives: The aim of this course is to express the aimed design ideas in two dimensional plane, to acquire advanced drawing and expression techniques, to prepare technical drawings and reading skills, to measure technical drawings, to use the signs and symbols, to acquire the ability to draw discipline specific structural and contextual elements.

Course Description: The aim of the course is to introduce scale, hatch and technical expressions by teaching plan, section and elevation drawings.

Learning Outcomes: Upon successful completion of the course, students will be able to:

- Students will be able to express the ideas developed during the design process and their justifications using various technical drawing expressions.
- Students understand vertical and horizontal transportation and circulation systems related to stairs.
- Students will be able to gain the ability to work in groups.

Language: The studio classes and discussions will be in English. Developing your verbal language skills will be very important in acquiring the disciplinary terminology as well as daily communication at the class.

For the Terminology:

Reading Text books:

Planned Learning Activities and Teaching Method: *The expected learning outcomes for the course will be assessed through: Studio drawings, homeworks, final exam.*

Homeworks: *Students are required to submit throughout the semester.*

Class Participation: *Regular attendance of all enrolled classes is expected. Do not be late to the class. Attendance will be taken through your signature within the first quarter of the course; if you come later, you will be considered absent. At the end of the Semester, your attendance will be reported on UBS system. Attendance is compulsory and in case of absenteeism of more than **20%** in practice and **30%** in theoric, the system will automatically grade you "F". If you miss a class, it is your responsibility to 'make up' all work, including items discussed in class. Class contribution will be measured in terms of quality not quantity. If you need to leave early for whatever reason, you should exercise politeness and notify your professor at the commencement of the session.*

Academic integrity & plagiarism: *Academic integrity is the pursuit of scholarly activity based on the values of: honesty, trust, fairness, respect and responsibility. Practicing academic integrity means never plagiarizing or cheating, never misrepresenting yourself, never falsifying information, never deceiving or compromising the work of others. Basically this means, either intentionally or unintentionally, using the words or ideas of someone else without giving credit, it's strictly forbidden.*

Use of Artificial Intelligence (AI):

Students are permitted to use artificial intelligence (AI) tools (such as ChatGPT, Grammarly, etc.) for grammar correction and academic writing improvement throughout their work. However, AI-generated original content (e.g., analysis, paragraph writing, conceptual description, etc.) must not exceed 20% of the submitted material. In any case where AI tools are used, students are required to include a clear declaration within the assignment/report/submission. This declaration must include the name of the AI tool/model used, the specific purpose, and a brief explanation of how it contributed to the work.

Example declaration:

"I used ChatGPT-4 for proofreading and restructuring the introductory paragraph."

Failure to declare the use of AI tools when applied will be treated as a violation of academic integrity and plagiarism policies and may result in disciplinary action.

Course Text books: *There is no specific textbook for this course but topics will mainly follow the chapters in the book 'Engineering Design Graphics'.*

Key Works: *In this studio course lectures and assignments mainly focuses on following course content.*

Specific Rules:

1. **Be punctual. Punctuality is a sign of respect toward yourself and the others.**
2. *Show respect for all the people and property around you.*
3. *Be responsible for your actions and meet all expectations.*
4. *Follow directions the first time they are given.*
5. *Students should use the Internet at school for academic purposes only.*
6. *It is forbidden to record classes with any type of device.*

Communication: *Students are encouraged to visit the professor during their Office Hours. If you cannot make it to announced office hours, please make individual arrangements via e-mail. However, do not expect the professor and the research assistant to respond at length via e-mail to questions of content, definition of terms, grading questions etc. If you have a question that requires a substantive response please set up an appointment to speak with one of us.*

* PLEASE NOTE: Details of the syllabus and course schedule are subject to minor changes that will be announced in class.

PLEASE NOTE 2: Class exercises will be considered as attendance. At the end of the course, you need to upload what you drew during the course as class exercise and those who didn't upload anything will be considered as absent even though they were in Microsoft Teams.

Grading: Midterm and final exam responses will be evaluated for accuracy, thoughtfulness and clarity. Assignments will be evaluated for content, quality of ideas and clarity of presentation (including all necessary materials). **If total assessment grade is lower than 50, student needs to repeat the course.**
